INTRODUCTION

After almost a decade in technical frontal sales, a career shift sounded risky especially the part that the joy was still there. That is when my journey of renewing my dream of becoming a **web developer** has begun**.**

Ambitious to put that into test, in addition to the intensive period of time that **Appleseed's Academy Full-Stack Bootcamp,** it required lots of challenges and practice.

Curiosity has always led the way for me, so, attending meet-ups has opened my eyes to broader perspective about web developing, it also enhanced the networking communicative side which led to incrementing the LinkedIn connections.

EDUCATION

Aug 2021 - Apr 2022 Full-Stack Developer Bootcamp — Appleseed's Academy
- An intensive 6-month, 720 hours training program that encourages self-led learning as well as Group projects that simulate real-world development teams.
- Learning & applying front-end skills such as **HTML**, **CSS**, **JavaScript**, **React**, and **backend** skills such as **Node.js, MongoDB** database, and **Heroku**.

During this bootcamp period I got a chance for **hands-on creating numerous projects** of customized ideas, this helped me creatively deal with challenges and learn to solve them or find different solutions to coding bugs and errors.

PROFESSIONAL EXPERIENCE

February -April 2022 **Intern Front end developer**, Joonko, Tel – Aviv.
   Joonko's technology plugs directly into a business ATS to improve workplaces across the United States by Providing HR teams with qualified talent from diverse and underrepresented backgrounds.
- Develop pages on the company's website that convert pdf files (case studies) and turn them into Live content.
- Technologies used: **Bit Bucket and WebStorm as hosting environments besides Sass and React JS** besides the backend, used **AWS** in addition to **Cypress Tests**.

PERSONAL CODING PROJECT

Favorite Project - Demo this project was simulated an online banking service. Developed with **CSS Styled Components** which were interesting to learn as an additional way to style the projects hope you like it**.**

Besides got the chance to learn about React Router functionality, and how to create a proper ReadMe in GitHub.

OTHER EMPLOYMENTS

2011 – 2021 **Assistant manager,** Bug Multi-system, Herzliya,
- Sales and Customer Service.
- Technical support – analyzing and explaining proper product use to customers.
- Mentoring of new employees.

LANGUAGES

English and Hebrew – Fluent, Arabic – Native.
